

MAINTENANCE MANUEL

BarManiaPro manufactures only high end quality products, which makes them low-maintenance. Nevertheless, annual maintenance and control of the equipment is required for a long service life of the products. By using the inspection schedule below, you ensure that your BarManiaPro sportspark stays safe and in good condition.

Recommended frequency:	Maintenance work:
Daily:	<ul style="list-style-type: none"> - Always check for alarming unsafe conditions in the park.
Weekly:	<ul style="list-style-type: none"> - Distribute loose soil material evenly under / near the equipment. - Keep the sports and playground clean. - Remove waste and other unwanted material in the park. - Clean the equipment with a mild soap, to remove it from dirt and salt (especially in areas near the sea).
Monthly:	<ul style="list-style-type: none"> - Check for damage to construction and soil. - Check the fixation of moving parts of constructions. - Check for pollution and vandalism of equipment. - Add loose soil material if missing. - Check for stability, position and bearing capacity of the equipment. Lubricate bearings if needed. - Check the safety surface on damaging areas. Replace / fix if needed.
Every 6 months:	<ul style="list-style-type: none"> - Check for damage to materials & coating for scratches. Use touch up paint to fix coating if needed. - Check for correct attachment/ fixation of materials in the ground. - Check for bending of crossbars / elements of the equipment. - Treat wood rot sensitive spots / parts with stain. - Check wooden parts for splinters. - Check the floor for damage and loosening of edges / seams. <p style="margin-left: 20px;">* Replace/ fix damaged parts as soon as possible!</p>
Every year:	<ul style="list-style-type: none"> - Check the conditioning of your safety flooring. Fix flooring if needed. - Check the stability of devices and parts. - Check the quality of the coating / paint layers. Fix scratches. - Check the fastening of all the bolts and clamps. Fasten with drilling machine if needed. - Check the fastening of all other parts such as nets, ropes, climbing walls, grappling sticks, gymnastic rings, climbing stones, wooden parts, etc.
